

Actuarial Analyst

Role Definition

About Us

EV is a young, fast paced, growing FinTech company and the leading UK provider of financial planning and advice technology.

Working with over 80% of large financial institutions in the UK, EV's white labelled solutions were used by approximately 200,000 consumers and financial advisers in 2017.

We have 70 talented integrated specialists, working across offices in Newbury and London.

The benefits of joining our exciting team

As well as offering fantastic opportunities for career progression once established in your role, you will be joining a friendly and relaxed working environment where you will be continuously supported and encouraged to reach your full potential. We have an open culture where you are encouraged to find and fix problems and not to pass them on to some other team. We are a great environment for makers and builders.

Sound like you?

We have fantastic benefits, including

- 25 days annual leave, bank holidays, one extra 'company day' for Christmas plus the option to buy a further five days annual leave
- Generous company pension scheme – up to 10% employer contribution
- Bonus
- Private medical
- Long term disability and Life Insurance
- Study support policy
- Free parking
- A huge range of free hot and cold drinks
- Excellent fully funded company events
- Weekly yogalates classes (on return to office)
- Company football team and Table Tennis team (on return to office)
- Poker nights with pizza! (on return to office)
- The opportunity to support local charities through fundraising events organised throughout the year

Actuarial Analyst

The Job

As an analyst within EV, you will be responsible for the set-up, testing and support of our stochastic modelling tools, working with senior analysts, consultants and developers to deliver high-quality solutions to our clients.

Tasks and Responsibilities

- Functional and numerical system testing of newly developed tools and enhancements to existing tools using an agile approach, handling aspects such as data integration and defect management to ensure timely delivery to specification/requirements.
- Configuring and testing of EV systems, including independent checking of stochastic forecast results.
- Test planning and implementation including drafting high level and low level test plans and test scenarios and scripts.
- As part of the team, helping to maintain solid processes and procedures behind the numerical testing required for EV systems to ensure accuracy and quality.
- Client-facing responsibilities
 - supporting configuration projects from the client requirements phase through to going live
 - Supporting Clients through their Test acceptance phases

Core Skills and Qualifications

- A degree in mathematics or a scientific discipline with high mathematical content
- Strong Excel knowledge
- Excellent attention to detail
- Good problem-solving skills and ability to provide creative solutions
- Able to work independently with minimal direction
- Ability to respond appropriately to moving or competing priorities
- Ability to communicate effectively and confidently
- Ability to function professionally and proactively in a team environment – being a good team player is essential

Key Competencies

Analytical ability

Ability to visualise, articulate, and solve both complex and uncomplicated problems by making decisions that are sensible given the available information

Teamwork

- Offers assistance to colleagues
- Collaborates and interacts without regard to title, level or position
- Fosters friendly and cooperative relationships
- Able to work cooperatively and collaboratively with others to achieve team goals.
- Work effectively with different personalities

Influencing

- Encourages dialogue to facilitate agreement with others
- Is credible in the role and gains respect
- Professionalism & integrity
- Evaluates lessons learned from both successes and failures
- Demonstrates willingness to make commitments based on all information known at the time and delivers upon those commitments
- Makes a positive impression; represents the company well at all times
- Adheres to all corporate policies, makes prudent use of company resources and acts with complete integrity in all matters
- Able to maintain a positive attitude under pressure

Communication

- Approaches communication in a transparent/open manner in order to facilitate clear messages and facilitate problem solving
- Takes time to actively solicit, and objectively listen to, all viewpoints before forming an opinion
- Comfortable using a broad range of communication styles, finding appropriate, effective ways to communicate
